Professional Summary

Software engineering student with experience building consumer-facing and SaaS web applications using React, TypeScript, Python, and SQL. Enjoy building interactive products, collaborating across teams, and iterating on features based on user feedback while taking ownership from implementation through testing.

Projects

Studio Vault - SaaS Platform for DAW Project Storage & Collaboration

- Develop a SaaS platform for DAW project storage, version management, and collaboration, delivering features through an iterative beta release
- Design and implement full-stack features using React, TypeScript, GraphQL, MongoDB, and AWS S3, expanding existing APIs and developing new GraphQL operations
- Refactor frontend and backend permission handling by centralizing role logic and enforcing authorization checks across the application
- Optimize application performance through Apollo Client cache management, GraphQL data flow improvements, and lazy loading to reduce network overhead
- Write frontend and backend tests using Jest and Cypress while collaborating in an agile workflow with Git, Jira, and senior software engineers

Lyrics Per Minute (LPM) - Typing Game (Single & Multiplayer)

- Developed frontend features using Next.js and React for a live typing game supporting over 1.4 million matches and 68,000 players
- Built administrative content management pages and expanded REST API integrations
- Iterated on gameplay and UI behavior to improve responsiveness and reduce user friction

Player Club Management - Athlete Portfolio Platform

- Translated Figma designs into responsive React components for an athlete portfolio and management platform
- Collaborated with designers and developers to deliver features supporting athlete branding and sponsor outreach.

Education

California State University
B.S. Computer Science — Expected 2027

Sierra College
A.S. Computer Science & Natural Sciences — 2020 — 2024

Employment

Handshake AI - AI Trainer — Nov. 2025 – Present

Target - Technology Sales Representative — July 2022 – March 2025

Sierra College - Computer Science Tutor — Spring 2023
